Celebrate the 6th annual Hemp History Week

Sow the Seed
www.HempHistoryWeek.com

Hemp History Week (June 1-7)

Hemp History Week is a nation-wide education campaign and marketing program that seeks to renew strong support for hemp farming in the U.S. while raising awareness about the benefits of hemp products.

Leaders from the natural products industry and retail outlets, health and wellness advocates, and citizens from across the nation have partnered to support 1000+ events celebrating hemp's history. Join us today and create hemp's future—Sow the Seed.

www.hemphistoryweek.com

What is Hemp?

Hemp is the distinct oilseed and fiber varieties of the plant species *Cannabis sativa* L. It is a tall, slender, fibrous plant that has been cultivated worldwide for over 10,000 years. Similar to flax, hemp provides raw materials for both food and fiber.

Hemp is an environmentally sustainable solution for potentially thousands of products ranging from body care to plastics, paper, textiles, building materials and more. Today, the market for hemp products is over \$580 million in annual retail sales.
